

Exfoliation: Microdermabrasion and Chemical Peeling

These techniques are very popular and effective when done correctly. Learn how to properly evaluate the skin and determine the right exfoliation needed for your clients' concerns and how to make your treatment successful.

Basic Makeup application

For anyone interested in learning how to correctly select and apply makeup according to face shape and skin tone from teenage to mature skin. Learn to use the correct brushes for each step and how to prep the skin prior to application.

Microneedling (Collagen Induction Therapy)

Learn why this technique is so effective in skin care and how to properly and safely use this device.

*There is additional \$60 cost for supplies for this class.

Airbrush Makeup

Go beyond basic makeup application and learn how to apply makeup flawlessly with airbrush application. Everything from foundation to eyeliner and mascara can be applied using this sanitary method. Great for personal or professional use. *There is an additional \$120 cost for supplies for this class.

CPR/First Aid Certification

Get certified in CPR and first aid, lifesaving skills everyone should know.

Marketing and Business

Learn the business behind the spa industry and how to market yourself effectively to bring in new and current clients.

Navigating Common Skin Conditions

In depths look at what causes and how to safely and properly treat common skin conditions such as acne, rosacea, sensitivity and hyper-pigmentation. Learn what ingredients to look for and what techniques to use when treating these conditions.

Eyelash Extensions

This class will show how to safely apply and remove semi-permanent lashes and temporary lashes.

*There is an additional cost for supplies for this class.

Women's Safety Course

Learn basic escape and defense tactics, situational awareness, and how to deter a predator.

Base cost for a Saturday class is \$120 unless otherwise noted. Some classes require additional fees for supplies which the student keeps
